Van Den Nest Nursery

Pat and Julie Van Den Nest
9594 Somers Road Eden, Ontario, N0J 1H0
519-866-5269

Dear Friends and Valued Customers,

2009

We would like you to visit our unique little nursery specializing in Native and Carolinian Trees and Shrubs. We offer old fashion personal service and quality stock at fair prices. We collect and propagate the majority of our seed from local hardy stock to ensure you that our stock is high in quality and hardiness. Many have asked us what is meant by Carolinian species and why the concern. Carolinian Species are those unique to a very small part of Canada. The Carolinian Zone covers only 0.25% of all of Canada's land mass spanning from Grand Bend to Toronto and south to the lakeshore. Many of the species found in this area can be found growing as far south as the Carolina's in the United States (hence the name Carolinian). Not only are these species at risk in Canada because of the small area that they are found in but it is also one of the most densely populated area in Ontario. So do your part to help protect Canada's biodiversity and plant Carolinian Species and other native trees and shrubs. We welcome you to visit our picturesque farm.

Pat and Julie

BUSINESS HOURS

April-May-June

Open Mon. to Fri.
8:00 a.m. to 6:00 p.m.
Sat. 8:00 a.m. to 5:00 p.m.

We have a selection of potted trees and shrubs at the Farm Center. We would like to invite those within driving distance, down to our Farm. We offer personal service, quality stock at fair prices. Trees and shrubs add beauty, shade and windbreaks for you and also for Wildlife. The more trees, shrubs and flowers you have the more Birds, Butterflies and Wildlife you will enjoy in your own backyard.

GUARANTEE:

We guarantee all stock to be in good condition on leaving the nursery and true to its name. We will not be held responsible for damages or delays in transit. We will not be held responsible for damages to plant material which may occur as a result of conditions beyond our control such as the planting, care, maintenance, improper soil conditions, flooding, drought and winter damage.

CARE OF TREES UPON ARRIVAL:

Open package immediately and moisten. Heel-in if you are not planting the trees right away (Heel-in means to dig a trench the depth of the roots, untie trees spread the trees out in the trench than place the soil over the roots and pack firmly). When planting dig hole giving the roots all the room they need. Well rotted compost is the best to add to the soil at this time. Place water in hole and water frequently after planted. Do not plant too deep or too shallow and pack the ground firmly. Call if you have any questions 1-519-866-5269.

You will receive the following Year's catalogue 2010 when purchasing in the current year 2009

Our goal is to satisfy our customers, if there is any problem or questions please call or write. We will do our utmost to please you!

TO PLACE AN ORDER: Call, write or fax in your order in at least 2 weeks before you wish to receive it. Some orders may require more notice. Please if you do not receive conformation from us call to verify we have received your order.
